

Factsheet Education Partner

The collage illustrates the various digital and print media content produced by Sustainable Switzerland NZZ, including:

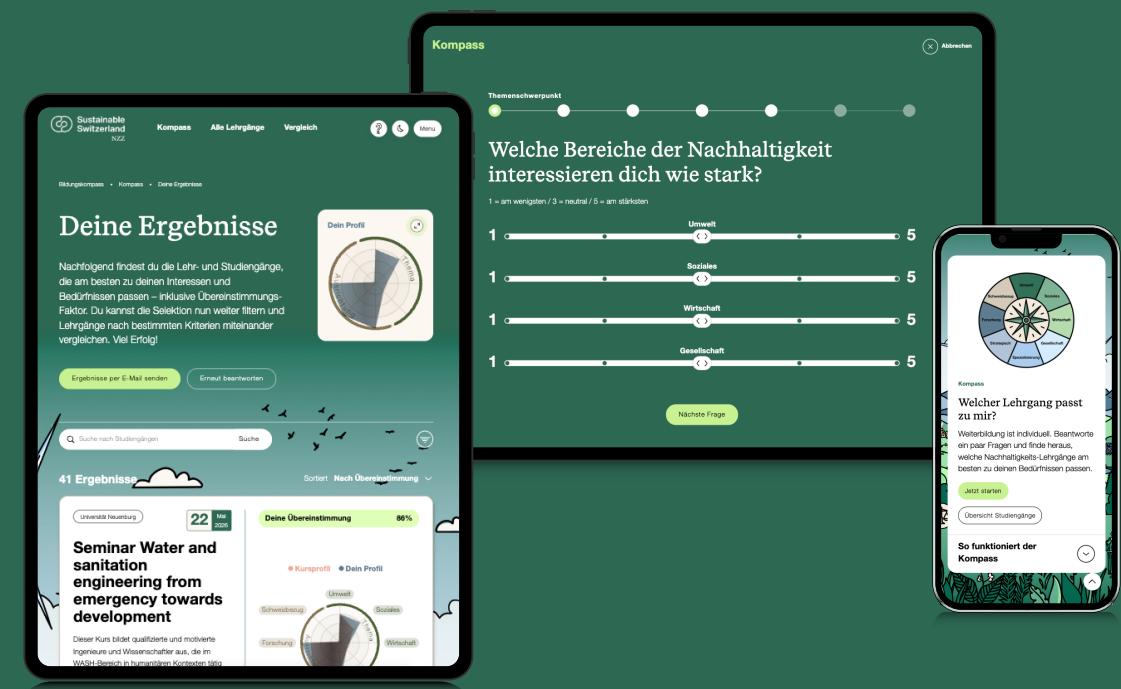

- A mobile phone screen showing a landing page for "MAS Nachhaltige Transformation" with a QR code and a video thumbnail.
- A laptop screen displaying the "Sustainable Switzerland NZZ" website with articles on "Klima & Energie" and "Lebensräume".
- A smartphone screen showing a video thumbnail for "Mit Wasser verdunsten Energie erzeugen" and another for "KI ermöglicht Wildtiersforschung in den Schweizer Alpen".
- A desktop screen showing a news article from "Neue Zürcher Zeitung" on "WEITERBILDUNG" featuring a woman speaking.
- A smartphone screen showing a video thumbnail for "Mit Aus- und Weiterbildung fit für die Zukunft".
- A smartphone screen showing a video thumbnail for "Der internationale Gerichtshof verkündet...".

Greater visibility for your degree programs with the Education Compass

Education in the field of sustainability is a key lever for long-term sustainable development. At NZZ and Sustainable Switzerland, you reach an engaged target audience with high relevance and above-average purchasing power.

With the Education Compass, Sustainable Switzerland has created a dedicated platform that structures, compares, and presents Switzerland's educational offerings in the field of sustainability. Alongside an intuitive comparison tool, an interactive questionnaire is available that recommends specific degree programs based on individual interests and goals. A large share of the programs offered by universities of applied

sciences and traditional universities has already been indexed. As an Education Partner, you have the opportunity to make your study programs visible where prospective students are seeking orientation – through content placed within an editorial context.

Learn more about the available options and contact us.

Advantages of becoming an Education Partner

As an Education Partner, you benefit from our data capture service for your degree programs, communication services in the form of multimedia content including audience reach, and access to our community of companies and professionals.

Overview of services

✓ **Content production**

Articles and/or videos related to your degree programs and institutions, such as alumni stories, expert contributions, or institutional insights – always in line with NZZ quality standards.

✓ **Reach within an editorial environment**

Distribution of the content across Sustainable Switzerland's communication channels (portal, social media, newsletter), including a teaser on nzz.ch. Optional: print publication in NZZ (see packages).

✓ **Logo presence**

Permanent listing as an **Education Partner** on the sustainableswitzerland.ch platform, with visibility within the Education Compass environment.

✓ **Data capture service**

Collection and publication of all sustainability-related degree programs offered by your institution.
